- Rigid construction
- No grill
- Simple feedlevel adjustment
- Removable cone for feedpan
- Easy to clean
- Low feed waste
- Excellent results

VDL Agrotech

Feed pan Special, the best solution for males and turkeys!

Special II

Control of feed distribution

- Individual feed level adjustment per feed pan
- Design of the feed pan bottom, edge en six wing feed divider prevents feed spillage
- 6 different settings of feed level

Males

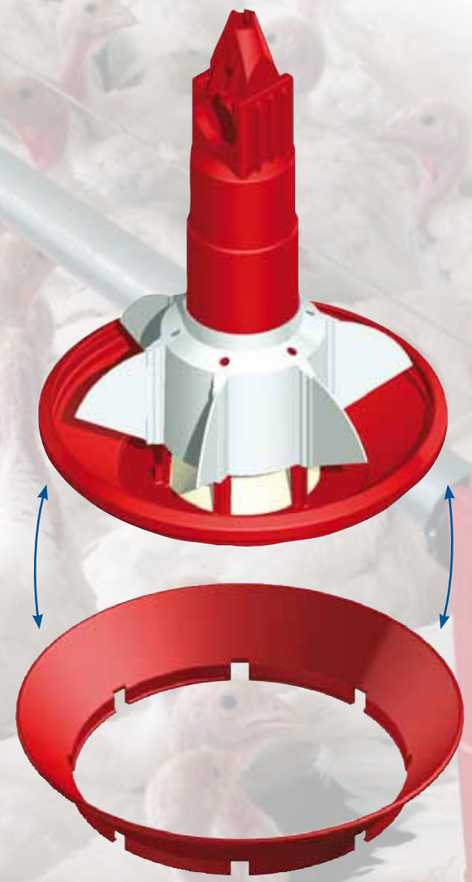
Absence of the grill

- Provides easy access to feed
- Prevents injury of the comb

Drive unit

Durable

- All materials used are of high quality and guarantee a long lifetime
- Drive unit standard equipped with motor protection switch and electronic level control sensor



Special III suitable both for rearing and finishing

- Provides the best results for rearing turkeys from 0 to 6 weeks
- Feed space design is ideal for heavy birds
- The absence of the grill prevents birds from getting caught inside the feed pan

High accessibility

- A special anti waste ring makes the pan extremely suitable for finishing turkeys up to 16 weeks
- The ring can easily be installed and removed with a slotted bolt
- The ring increases the diameter of the pan which makes the Special III very accessible for heavy birds
- Minimizes feed spillage

Special III

Rearing turkeys

Anti waste ring

Finishing turkeys
